

# Dividend announcement

**Deutsche Telekom AG, Bonn**  
ISIN no. DE0005557508  
Securities identification code 555 750

On April 9, 2025, the Shareholders' Meeting approved the use of EUR 4,397,681,315.70 of the EUR 29,122,270,011.11 in unappropriated net income generated in the 2024 financial year for a dividend payment of EUR 0.90 per no par value share carrying dividend rights, and the carrying forward of the remaining balance of EUR 24,724,588,695.41.

The dividend will be paid out to shareholders by the custodian banks via Clearstream Banking AG from April 14, 2025. The settlement agent is Citibank Europe plc. As the dividend is to be paid in full from the tax contribution account in accordance with § 27 ("Contributions other than into nominal capital") of the Corporation Tax Act (Körperschaftsteuergesetz – KStG), payment will be made without deducting capital gains tax or the solidarity surcharge.

Dividends paid to shareholders in Germany are not subject to taxation. There are no tax refunds or tax credits associated with the dividend. In the German tax authorities' view, the dividend payment reduces the acquisition costs of the shares for tax purposes.
